Applicant's arguments filed 10-11-05 have been fully considered but they are not persuasive.

Applicants' Terminal Disclaimers are sufficient to overcome the cited rejections.

The following rejection is set forth as new:

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-9, 16-18, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Eisen et al.(5,736,588).

Eisen et al. discloses preparations of polyurethane foams prepared by reaction of polyisocyanate and polyol in the presence of water, stabilizers, catalysts, and solution promoter compositions which correspond in structure with the acid blocked tertiary amine amide catalyst compositions of applicants' claims (see column 2 lines 3-55, column 4 lines 17-64, and column 6 lines 3-57, as well as, the entire document).
